Midwest Invitational Tournament

IMPORTANT

The MIT Tournament consists of 4, 6, or 8 team individual brackets for each grade level. There is no set number of individual brackets per grade level, only that there be an even number of teams. As the team entry forms are received for a grade level, they are held until an even number is created. Therefore, while February 15 is the deadline, that does not mean a team is automatically included in the tournament. A check submitted with a partially completed form will be accepted but team must be completed by February 15 or the team will be replaced.
