Officials Designated Area:

- We set aside officials areas in the center or corner of each court. This area is for officials and officials only. Coaches may not address the officials while they are in these areas before, at halftime or after games.
- In high school and college games, officials retreat to their locker rooms at halftime and after games and coaches are not allowed to enter into those areas - the same philosophy applies here...although it's not a locker room, it is their area, and they should not be approached.

Court Use:

- Only players and coaches from the current game are allowed on the floor during the game
- NO SHOOTING will be allowed during breaks in game action by anyone other than the players that are assigned to that court at that time.
