IN CASE OF A TIE IN STANDINGS: TIEBREAKER ORDER

1: Head to Head

If only two teams are tied, head to head result is the first tiebreaker. If no head to head result, then tiebreaker moves to Point System (#2).

If there is a three or more way or tie, the tiebreak automatically becomes the point system (#2) and, if necessary Defensive Points (#3). Head to head results are not counted in a three or more way tie due to the likelihood of uncommon opponents.

2: Point system

A point differential system will be used. Teams receive a maximum of 13 points for a win and a maximum of -13 points for a loss. The team with the most positive points will be first followed by the next most positive point total.

3: Defensive Points

If two teams remain tied, we revert to a Defensive Point System – A total defensive point system will be used in case of a tie between 2 or more teams. Example: Team A is 2-1 with wins of 45-32 & 49-45 and a loss of 56-64. Total defensive points determined are 141. Repeat the same procedure for the remaining teams. The team with the lowest points allowed will determine the teams' order of placement.
