\* Once inside, teams and spectators will be able to move between the Activities Center and the High School courts for back-to-back games. When you leave and come back, please use the appropriate door for your next game.

**Every coach and spectator will need a wristband, including small children and players watching a sibling's game.**

Everyone must conduct the required [at-home screening](#) before arriving to the tournament.

#### Team Arrival:

- **One coach can check in 30 minutes before game time.** Please come to the appropriate door for your first game. Coach will receive wristbands and face shields and should give wristbands to a parent outside to distribute.
- **Players can enter the building 20 minutes before game time.**
- A volunteer will direct the team to the holding area for your court to change shoes. Teams will be socially distanced from other teams in the holding area.
- A tournament volunteer will escort you to your court as soon as it is cleared and sanitized.
- Games will begin no more than 5 minutes early and only if both teams are present and warmed up.

#### Spectator Arrival:

- Spectators with wristbands will be allowed in **5 minutes before game time** and will proceed to the court.
- **Please DO NOT come in early or crowd around the doors.** Minnesota Department of Health representatives have been monitoring tournaments, and this is one of the problems they have seen. It is forecasted to be bitterly cold. Please just stay in your vehicles until it is time to enter.
- A spectator can transfer a wristband to another spectator for a later game. Just be sure your team attendee list reflects this so contact tracing can be done later if necessary.

**Exits:** A volunteer will direct everyone to the appropriate exit following each game.

**Face coverings:** All attendees must follow the [Mask Policy](#) from the Minnesota Department of Health.
