

Return to Play – COVID-19 Facility Protocol and Procedures

Revised April 16, 2021

The following guidelines have been put together as an effort to continue a safe return to play. It is important to stress that these guidelines are just guidelines. **They are not meant to replace or supersede any federal, state, or local guidelines.** These guidelines will be consistently reviewed and revised with current best practices.

Anyone attending a program or event at TSE should answer the following questions before coming to TSE. If the answer is yes to any of the questions, individuals should stay home.

- knowingly been in close or proximate contact in the past 14 days with anyone who has tested positive for COVID-19 or who has or had symptoms of COVID-19 in the past 14 days.
- tested positive for COVID-19 in the past 14 days; and/or
- has experienced any symptoms of COVID-19 in the past 14 days

Activity Participants (players, coaches, and officials)

- For outdoor activities, individuals should ensure a distance of six feet is maintained at all times unless safety or the activity (playing/practicing) do not allow. If a shorter distance is required, individuals should wear acceptable face coverings, unless players are unable to tolerate a face covering for the physical activity. Players, coaches, trainers, officials, and other individuals are required to wear a face covering.
- For indoor activities, individuals should ensure a distance of six feet is maintained at all times unless safety or the activity (playing/practicing) do not allow. All participants ages 4 and over must wear a face covering. It is strongly suggested that children under the age of 4 wear face coverings.

Spectators

- Limited to two per player
- For indoor and outdoor activities
 - Must maintain six feet of physical distance between individuals and/or family/household units at all times and must wear face coverings at all times, so long as they are over the age of two and medically able to tolerate such coverings.
- No spectator groups may exceed the gathering limit that is currently in place for the Finger Lakes Region

Ensuring a Fun and Safe Environment

At TSE our guests and employees health and safety are our top priority. We are following all NYS guidelines regarding Reopening NY to ensure a healthy environment and our programs will be modified accordingly. Our procedures include:

- More frequent, detailed cleaning and disinfecting of high touch areas throughout the facilities
- Plastic shields are in place at our front desks to protect Team Members and guests
- Hand sanitizer stations are available throughout the facilities
- Floor decals and signage in place to encourage social distancing
- Facility flow and seating have been adapted to allow for ample spacing
- Daily health screenings will be performed on all employees
- Employees will receive education and training on prevention
