

CURRENT MASKING REQUIREMENTS

Please note that the following mask *requirements* are those of ISD 194 and Community Education (the school district department that manages our gym use) as a condition of allowing LNGBA to use their facilities for the season. For the district, all masking requirements are based on the cases per 10,000 rate for Dakota County.

Beginning November 8, **all persons** over the age of 2 are required to wear a face covering when inside ANY Lakeville Area Schools building. This will remain in place through November 21 at the earliest.

- **Girls can remove their mask when playing basketball, but must be masked entering the school and while getting ready to play. Masks should be worn while on the bench when possible.**
- **Coaches may remove masks only when actively coaching/communicating.**

It is very important that LNGBA have 100% compliance with these school district policies. Community Ed has monitors working the facilities to ensure that we are following their rules, and failure to do so will jeopardize our ability to continue using school gyms, which are obviously a critical resource for our organization. We will update you any time these requirements change.
